

PROVISIONAL ISSUE (REPRINT)

(Corrected up to the 1st September, 1937)

**List of Major and Minor Heads of Account of Central and
Provincial Receipts and Disbursements**

GENERAL DIRECTIONS

1 The minor heads prescribed under each major head may be divided into such subordinate heads as may be required to meet the local or special circumstances of each government, provided that as regards heads of expenditure, the sub-divisions of minor heads in the general accounts should follow as far as possible the sub-heads and other units of appropriations selected for Demands for Grants and Appropriation Accounts. It shall be an important duty of the Accountant General to see that the sub-divisions of minor heads in the general accounts are not unnecessarily multiplied and that only such heads are opened as are really necessary.

2 All receipts and disbursements of the Central and Provincial governments in the United Kingdom except those relating to certain Debt and Remittance heads in the accounts of the Central Government (See General Note under Sections N to V) are finally brought to account on the books of the accounting officers in India under the appropriate heads of accounts concerned. Exchange in respect of all revenue and capital transactions in England is adjusted under the several major heads under which the transactions in England occur. A separate minor head "Loss or Gain by Exchange" may be opened, when necessary, under any major head under which no such minor head is shown.

3 A new minor head "Works" may, if necessary, be opened under any of the major heads grouped under Sections A, F, G and J for the record of expenditure on the construction and repairs of such works as may be transferred to the administrative control of the Civil Departments concerned, under the orders of the competent authorities. Suitable sub-heads may be provided under the minor head "Works" for the separate exhibition of expenditure under Original Works, Repairs and Other Charges. Receipts, if any such as 'Rents of buildings', realised from such works should be recorded separately under a suitable detailed head under the appropriate major head of receipts concerned.

4 Expenditure on account of restoration of damage caused by extraordinary casualties, such as flood, fire etc., if charged to a Capital Major Head should be recorded under a separate minor head "Extraordinary Replacements" under that Capital Major Head.

(50) Under this head should be credited the gross selling price of any articles manufactured in a jail or in a Thuggee school of industry, and payment for work done in a jail, except at a jail press the receipts of which are creditable to "XLV Stationery and Printing"

Only actual receipts from the public in cash, or receipts by transfer debit to some department, not classified under Jails and Convict Settlements, may be credited under "Jail Manufactures", and similarly only cash outlay may be debited. The same rule applies to receipts and charges under Stationery and Printing in the case of jail presses

It is not permissible to show anything as a receipt under these heads, which is brought in by debit to "Jails" or "Stationery". But if supplies are made by the manufacturing department of the Jails for consumption in them, either the raw material received and paid for should be charged as supplies or, if it has been charged for under "Manufactures," it should be transferred from that head to the sub-head "Supplies"

The instructions do not prevent transfers by debit and credit being made in the administrative accounts of the Jails

XLII RECEIPTS STATES	FROM INDIAN	Receipts from Indian States (79) Deduct Refunds
XLIII TRANSFERS FROM FAMINE RELIEF FUND (80) (302)		

(79) His Majesty has directed that all cash contributions and receipts due from or by an Indian State under Section 146 of the Government of India Act 1935, should be placed at the disposal of the Central (Federal) Government. These receipts enter the accounts of the Crown Representative only formally, the entries on the receipt side of his account being offset by a deduct entry to represent the amount placed at the disposal of the Central Government. These receipts other than repayments in respect of loans are recorded under this head in the Central Accounts, the receipts from each Indian State being shown separately.

(80) This head is credited with the sums transferred from Famine Relief Fund to meet expenditure on Famine Relief and other objects of a revenue or capital nature, which is chargeable against the Fund. The head is not operated upon in provinces in which such transfers are treated as deductions from expenditure under "51-A—Famine Relief" and other heads concerned.

Transfers from the fund as *advances* on account of loans to cultivators under the Agriculturists' Loans Act, (e.g., in Orissa) and for repayment of debt are accounted for through the head "Transfers from Famine Relief Fund" in the Debt Section of the account—*vide* footnote (285-B).

(82) Includes refund of gratuity on re-employment and recoveries of actual charges in respect of pensions relating to other Governments

Recoveries of leave and pensionary charges on account of establishment doing work for other Governments, outside bodies and others are adjusted in accordance with the following rule —

When leave and pension contributions are levied separately, the recoveries representing leave contributions should be credited to the receipt head corresponding to the service head to which the pay of the establishment is debited, or, where there is no corresponding receipt head, to the minor head " Collection of payments for services rendered " under the major head " XLVI —Miscellaneous ", while the recoveries representing pensionary contributions should be credited to " XLIV —Receipts in aid of Superannuation " In cases in which the combined rates of leave and pension contributions continue to apply, the recoveries should continue to be credited to the head " XLIV —Receipts in aid of Superannuation " These rules apply to recoveries of foreign service contributions also, the recoveries representing contribution for leave, where this is levied separately, being credited to the receipt head appertaining to the department which lent the officer to the foreign employer or to the head " XLVI —Miscellaneous ", as the case may be

Additions to regular establishments the cost of which is recoverable from local funds, etc, should be charged direct to general revenues as a separate section or branch of the establishment to which they are attached The recovery in respect of the cost, of such establishment should be treated as a departmental receipt, unless it can be taken in reduction of expenditure under the rules governing the treatment of recoveries of expenditure in the accounts, while the recovery representing leave and pension contributions should be adjusted in accordance with the procedure set forth above

The sub-heads under this minor head vary from province to province according to the actual constitution of the district staff

(109) Government Estates are estates of which the rental temporarily or permanently belongs to Government. The charges may be shown under three divisions

- (a) Collection of Revenue
- (b) Outlay on Improvement
- (c) Cost of Settlement

Where commission is paid on the collection of rents of Government estates, it should be charged to (a) under this head, and not to "Charges on account of land revenue collections"

The survey and settlement of a permanent estate, if done as an isolated business, and not as part of a general arrangement for survey and settlement, should be charged to (c) under this head

(110) Includes commission on Land Revenue Collections

Percentage allowed as remuneration to village officers (Bombay)

(111) This includes the charges of the department created for the maintenance of the record of survey but dealt with in different provinces under different names. It should be divided into two sub-heads "Superintendence" and "District charges". All Patwari and Kanungo charges should be shown under the latter head (except in Bengal, Bihar and Orissa)

(112) These allowances consist mainly of allowances paid to village officials, many of them hereditary maintained in the interest of land revenue collection

(127) The debit under this head in the accounts of a particular year is to be limited to the discount actually accrued during that year. This is effected in the manner indicated below. On the issue of a treasury bill, the entire amount of discount should be charged in the first instance to this head. At the end of the year this head should be relieved of that portion of the discount on treasury bills outstanding on the 31st March which has not yet accrued, by credit to this head and debit to a separate detailed head "Discount on treasury bills" subordinate to the local ledger head "Suspense Account". On maturity of the treasury bill in the following year, the amount of discount accruing in that year should be charged to this head by credit to the detailed head under "Suspense Account" mentioned above, thus clearing the debit outstanding under that head.

As regards Treasury Bills issued by the Government of India, the necessary adjustment in respect of part discount in respect of bills outstanding on the 31st of March is made by the Accounts Officers in consultation with the Controller of the Currency. Similar adjustments in respect of Treasury Bills issued by Provincial Governments should be made by the Accountant General in consultation with the Government concerned.

(144) Charges of Secretary to the Governor General and Secretary to a Governor (or of Private Secretary to a Governor where this designation is retained) and of their establishment as well as any other expenditure falling under section 305 of the Government of India Act, 1935, are shown under this head

(145) Includes all charges on account of the pay and allowances, etc., of Military Secretary, Aides-de Camp and other personal staff of Heads of Provinces and of their establishments and contingencies. The charges on account of the establishment of the Military Secretary to the Governor General, Comptroller of Viceregal House and of his establishment and of contingencies are recorded under this head but the pay and allowances, etc., of the Military Secretary himself, Aides de Camp and Bodyguard of the Governor General are debited to Defence estimates

The purchase of motor cars for the Heads of Provinces is charged to this head

The travelling and other allowances granted to Indian Officers of the Regular Army or Military Police on the retired list, while doing duty as honorary Aides-de-Camp to a Governor, will also be charged under this head

The charges connected with the upkeep of Governor General's gardens are also recorded under this head

(146) Under this head are included charges on account of the purchase, upkeep and feed of State horses, the repairs and upkeep of State carriages and the maintenance of State motor cars

(147) This head is meant for expenditure of a semi-private character such as stable establishments and contingencies, wages and allowances of household servants, etc., incurred by the Governor General and the Heads of Provinces which is met from the contract grant. Charges on account of the purchase of State motor cars for the Governor General and the maintenance of State motor cars for Heads of Provinces are also charged to this head

(148) Suitable detailed heads may be opened under this head to suit the circumstances of each province

(150) This head records the charges connected with the elections for the Indian and Provincial Legislatures and also those incurred in connection with commissions appointed from time to time for the trial of petitions against elections to Indian and Provincial Legislatures

(151) The charges of different departments of a Secretariat should, if possible, be shown separately. Translators' Department should be an additional sub-head. The charges of the Intelligence Bureau attached to the Home Department of the Government of India are also taken under this head

(152) On the establishment of the Federation, this head will go to the Defence Estimates

(153) Where such an officer exists in any province, the pay and allowances of the Inspector General and the cost of any combined establishment are taken to this head but where separate establishments are employed on the different services they are shown under the respective major heads. A similar procedure may be followed in other cases in which administrative services relating to more than two major heads of account are combined in a single charge for purposes of control. Thus, the charges of the Director of Land Records, Inspector General of Registration and Registrar of Births, Deaths and Marriages in Bombay, which are combined in a single post, are recorded under a separate minor head subordinate to "25 General Administration". The charges of the Director of Land Records and Surveys, Superintendent of Stamps, Inspector General of Registration, etc., in Assam are also treated in the same way

(154) Records the cost of the audit of Local Fund Accounts

(155) When additional Commissioners are employed only on judicial work, their pay and all other charges should be taken under "27—Administration of Justice Civil and Sessions Courts"

(156) In determining the precise charges on account of district administration which should be debited under this head, the general principle should be that any part of such charges which is definitely expended upon work connected with a single major head should be taken as a charge against that major head, while the rest of the charges spent upon work connected with more than one major head should be taken to this head

(157) Charges on account of Treasury should be recorded under a separate sub-head—Charges for acquiring old and foreign coins under the Indian Treasure Trove Act should be treated as contingent charges of the Treasury

Thus the grants made by the Governor, Ministers, Commissioner or the Deputy Commissioner may be classified under this minor head. Similar grants, if any, made by other authorities should be recorded under the appropriate, service head concerned and any expenditure which cannot be so recorded may be classified under "57—Miscellaneous—Miscellaneous and unforeseen charges"

(159) In Bihar the expenditure incurred by District Officers and Officers subordinate to them on schemes financed from rural reconstruction grants is debited to this head, an equivalent amount being transferred from the deposit head "Deposit account of grants for Economic Development and improvement of rural areas" to the head "XLVI—Miscellaneous—transfer from the deposit account of grants for economic development and improvement of rural areas"

In the Punjab the charges on account of the Legal Remembrancer, who is also Secretary, Legislative Department, are debited to "25—General Administration—C Secretariat and Headquarters Establishments—Civil Secretariats"

The charges for conducting Civil suits are taken among Collectors' Contingencies if managed by the Collector, but so far as they consist of pleaders' fees, they should go under this head. The cost of suits, the filing of which is the natural and proper function of the Central as opposed to a Provincial Government, is chargeable against the Central Government and should be debited to the department which originates the suit.

Fees to pleaders in pauper suits should be taken under this head (as well as other money charges in pauper suits, such as advances for batta to witnesses, the recoveries being credited to "Court fees realized in cash")

Fees paid directly by Treasury Officers to pleaders conducting criminal cases should be taken against this head and not against the department employing the pleaders. The retaining fees paid to public prosecutors and pleaders who are Government servants should be classified under the sub-head "Pay of Officers" or "Pay of establishment", whichever may be considered more suitable, and the daily fees paid for the conduct of cases to Government prosecutors and pleaders and to pleaders who are not in Government service should be classified under the sub-heads "Allowances, Honoraria, etc." and "Contingencies", respectively.

Advances for Civil suits should be finally charged off against the Department receiving them.

(209) The following governing principle is laid down for determining whether an item of expenditure should be recorded under the head "38—Medical" or "39—Public Health". The head "38—Medical" has reference to medical facilities given to the public through the treatment of individual cases, while the head "39—Public Health" has reference to general measures affecting the public as a whole, *e g*, sanitation, research investigation, the control and combating of epidemic diseases, etc. The principle is, however, subject to the provisions of Article 181 (1) of the Audit Code.

(210) Includes —(1) All-India Medical Council, (2) Superintendence (*i e*, Surgeon General or Inspector General of Civil Hospitals, with his establishment and contingent charges), (3) District Medical Officer (including Assistants and Establishment), Subordinate Medical Officers attached to districts, sub-divisions, or similar general duties, and not drawing pay as part of a Hospital Staff, should be shown here, (4) Reserve Medical Subordinates.

NOTE —The additional allowances which Surgeons get should be shown under the appropriate head of Jails (that is, as pay if in charge, and as hospital charges if only in Medical charge), Mental Hospital and Medical Schools.

(211) Includes —(1) Presidency Hospitals and Dispensaries, (2) Mofussil Hospitals and Dispensaries, (3) Marine Hospitals, (4) Grants to Hospitals and Dispensaries, including grants to leper asylums, (5) Other charges, (1) and (2) include charges on account of Leper and Lock Hospitals.

54 FAMINE.

A FAMINE RELIEF (239) (240)

Salaries and Establishment (241)

(239) The term "Famine" is to be interpreted in wider sense to cover famine due to draught or other natural causes, such as flood, earthquake or similar calamity. In case of doubt whether the expenditure on any particular form of distress can properly be regarded as famine expenditure, a reference should be made to the Auditor General for advice.

(240) All expenditure incurred directly for the relief of distress shall be debited to the head "54 A—Famine Relief". Expenditure incurred indirectly due to Famine, *e.g.*, charges incurred on an increase of the Police Force, medical aid, or compensation to Government servant for dearness of provision, shall be debited to the appropriation service heads. Subject to the observance of this broad principle the rules laid down in Note 1 under this footnote and in footnotes (241) to (245) and the detailed heads prescribed there in may be modified where necessary to suit local conditions and orders.

NOTE 1—Expenditure incurred during the period of observation and test prior to the formal declaration of famine or scarcity should be finally charged to the head "54-A—Famine Relief," but expenditure incurred during such period on a revenue producing Irrigation work in respect of which a capital account is kept should be dealt with in accordance with the rule in footnote (242) (b).

NOTE 2—The term "scarcity" as used in the above note denotes a recognised stage of distress intermediate between the stages of observation and test and famine, which any Provincial Government is at liberty formally to declare if necessary.

(241) The following detailed heads should be opened —

- 1 Pay and Allowances, Special Relief Officers
- 2 Establishments—
 - (a) Clerks and other superior establishments
 - (b) Inferior establishments
- 3 Travelling allowances
- 4 Contingencies

As regards Government servants, the following rules should be observed —

(a) In the case of a Government servant already in the service of Government (other than an officer in military employ proper), his pay and allowances, together with his contingent expenditure, shall be charged to the ordinary service head when he is merely an addition to an existing establishment which requires strengthening owing to famine work, but when he is detached altogether from his own regular duties and is employed mainly on famine relief, and his place in the permanent establishment is filled up by fresh appointment, his pay and allowances together with his contingent expenditure shall be charged to the head "54-A—Famine Relief".

(b) The pay and allowances of an establishment specially entertained for, and mainly employed on famine relief, shall together with its contingent expenditure be debited to the head "54-A—Famine Relief".

(c) In all cases falling under clauses (a) and (b), travelling allowances to and from the work and also while engaged on the work, as well as pay and allowances during transit, shall be debited to the head to which the pay of the official while actually employed on the work is debited.

(d) The rules regulating the debit of the pay and allowances of Government servants in military employ proper deputed to famine duty are given in Article 182 of the Audit Code, Volume I.

(242) The following rules regulate the classification of expenditure of Public Works undertaken for purposes of famine relief —

(a) Public Works undertaken in consequence of the occurrence of famine but not directly for the employment of famine stricken people and not therefore treated as relief works will be classified in the accounts as ordinary Public Works are classified except that any expenditure in excess of normal rates incurred in consequence of the employment for relief purpose of unskilled and unprofitable labour will be transferred to the head "54-A—Famine Relief"

(b) Public Works expenditure which is undertaken directly for the relief of famine and controlled and managed under the conditions applicable to famine relief works will be charged to "54-A—Famine Relief" whether the work is or is not one which would have at some time or other to be undertaken irrespective of famine. If, however, the work on which famine labour is employed is a revenue producing work in respect of which a capital account is kept (whether within or without the Revenue Accounts of the Government), the value of the work done, reckoned at ordinary rates, will be charged to the ordinary head of account, and the excess only debited to "54-A—Famine Relief"

(243) Includes—

- (a) Relief given in Government Institutions
- (b) Relief given at the houses of the people
- (c) Relief given in other ways

- (1) current revenues,
- (2) a special fund called the "Fund for the development of Civil Aviation "
- (3) borrowed funds or other resources outside the Revenue Account

2 The principles to be observed in deciding whether an item of works expenditure should be charged to Revenue or to Capital are as follows —

- (a) Capital bears all charges for the first construction and equipment of a project, as well as charges for maintenance of completed parts of a scheme until the whole scheme is completed, and charges for such substantial additions and improvements to existing works as may be sanctioned by competent authority Charges on account of the restoration of damage caused by extraordinary casualties may also be charged to Capital
- (b) Revenue bears all recurring charges on maintenance and repairs, working expenses, temporary and experimental works and minor additions or improvements up to a monetary limit to be fixed by Government
- (c) Revenue bears all charges for renewal and replacement even when such renewal and replacement include an element of betterment When a renewal or replacement scheme includes a substantial addition or improvement, only the cost of the latter may be charged to Capital

(282) All payments on account of Commutation of pensions whether in England or in India, including payments made to other Governments, are brought to account in the first instance under the Head "83—Payments of commuted value of pensions—Commutated value of pensions" in the books of the Central or the Provincial Government, as the case may be, and at the end of the year such portion of the expenditure recorded under that head as the Central or Provincial Government as the case may be may decide to charge against current revenues is transferred to the Capital major head "55 A—Commutation of pensions financed from ordinary revenues" under Section "JJ—Miscellaneous—Capital expenditure charged to Revenue". The net amount debited to the capital major head "83—Payments of commuted value of pensions" after deducting therefrom the recoveries, if any, from other Governments, is repaid from revenue by a system of equated payments spread over 15 years, which include interest on the capital invested. The equated payments in respect of each year's commutation commence from the following year, and the rate of interest that is adopted is, in the case of the Central Government, that Government's borrowing rate, and, in the case of a Provincial Government, that which it may decide to fix with due regard to the principle that the interest portion of the equated payments should approximate closely to the actual interest charges paid on any sums borrowed for this purpose.

Where pensionary charges between two Governments are settled annually on the basis of commuted values by payment of the net amount due by one Government to the other, the net amount so paid or recovered is brought to account under the minor head 'Commutated value of pensions' or the head "*Deduct*—Amount recovered from other Governments", as the case may be.

All capital charges on account of commutation of pensions chargeable to the Central Government excepting those pertaining to the Railway, Posts and Telegraphs and Defence Departments are brought to account finally on the books of the Accountant General, Central Revenues. The adjustments on account of commutations of Railway, Posts and Telegraphs and Military pensions are made under the head "83—Payments of commuted value of pensions" on the Railway, Posts and Telegraphs and Defence books, respectively, and equated payments in respect of these commutations are debited to the Departmental major head concerned. The High Commissioner for India in passing the payments to India through the London Account Current furnishes the necessary information as to the head to which the pensions are charged in each case

(283) Payments on account of gratuities to retrenched personnel of the Government of India which were taken to the capital major head "85—Payments to retrenched-personnel" are to be written back to revenue in five years beginning from the year succeeding the year of payment, but no interest is to be taken into account for the purpose of this adjustment. The annual debits on account of writes back of gratuity payments so far as they relate to non-commercial civil departments are taken to the minor head "gratuities" under the major head "55—Superannuation allowances and pensions" by credit to this head, while such debits relating to payments made to the Posts and Telegraphs and other commercial departments are taken to a separate sub-head under "Working expenses" of the commercial department concerned

A similar procedure may be applied *mutatis mutandis* to similar transactions of Provincial Government if it desires to do so

CENTRAL ROAD FUND	(309)	As in column (1)
-------------------	-------	------------------

(309) As a result of the recommendations of the Indian Road Development Committee both the excise and import duties on motor spirit were raised with effect from the 28th February 1929, the additional revenue being earmarked for credit to the "Central Road Fund" from which grants are made to Provincial Governments and other bodies for the purposes of road development. The proceeds of the additional duties are first credited to the head "I-Customs" or "II-Central Excise Duties" according as they represent extra duty of custom or of excise, but at the end of each year an equivalent amount, after deduction of a certain portion as the share of the Civil Aviation Department in respect of petrol consumed for aviation purposes, is transferred as a block grant to the "Central Road Fund" by debit to the head "50-Civil Works—Block grant for transfer to Central Road Fund". Grants made out of this Fund to Provincial Governments and others are charged to the Fund. The charges met out of the 15 per cent reserve retained by the Central Government in the Central Road Fund are brought to account in the first instance under "50 Civil Works—Central", the debit under that head being set off by an equivalent amount transferred from the deposit head "Central Road Fund" so that the net charge under "50 Civil Works" will be nil. This transfer is shown under a distinct minor head "Deduct—Amount met from Central Road Fund".

The subventions made from the Central Road Fund to Provincial Governments and centrally administered areas are credited to the head "Subventions from Central Road Fund" in the accounts of the province or of the Central area concerned. This head is debited with the expenditure on objects approved by the Central Government. The actual expenditure incurred from time to time is charged in the provincial accounts to the head "50-Civil Works" or other appropriate head of account under a separate sub-division of the minor head "Communications", "Grant-in-aid", or other head of account concerned. At the same time, an equivalent amount is transferred month by month to the deposit head "Subventions from Central Road Fund" by credit to "XXXIX-Civil Works—Transfer from Central Road Fund". A similar procedure is also followed in the accounts of the centrally administered areas, with the difference that the transfer to the deposit head "Subventions from Central Road Fund" is made by credit to "50 Civil Works—Deduct—Amount met from subventions from Central Road Fund" or other appropriate head of account instead of by credit to "XXXIX Civil Works".

This head is closed to Government Account in the ledger

(313) This head is credited with amounts advanced from the Fund to the Provincial Loan Account for making advances to cultivators etc., (as in the Orissa Act) and is debited with the instalments in repayment of the advances. The *per contra* debits and credits are taken to the head "Famine Relief Fund"

This head is not operated upon in provinces in which these loans are treated as final charges against the Famine Relief Fund. In such cases, the advances to cultivators, etc. and the repayments of such advances are in the first instance accounted for in detail under Section "R-Loans and Advances by Provincial Governments", and at the end of the year lump sum transfers are made through the head "*Deduct*—Transactions in connection with advances to cultivators financed from the Famine Relief Fund" under Section R to the head "Famine Relief Fund Loans to Cultivators, etc." The interest on such advances are not taken to the head "Famine Relief Fund"

(314) This head and the connected minor heads under "55 Superannuation Allowances and Pensions" are operated upon in the accounts of Bihar. Pension contributions recovered by the Government of Bihar from the Government of Orissa in respect of officers of the joint cadres serving in Orissa are first credited to the head "XLIV—Receipts in aid of Superannuation", but at the end of each year an equivalent amount is transferred to the Pension Equalisation Fund by debit to the head "55—Superannuation Allowances and Pensions—Transfer to the Pension Equalisation Fund". Each year a sum equivalent to the amount estimated as required to meet the Pensions payable in the course of the year in respect of the service of joint cadre officers in Orissa for which contributions have been received is transferred from the Fund to the head "55 Superannuation Allowances and Pensions—*Deduct*—Amount transferred from the Pension Equalisation Fund"

(332) Moneys received by a province in aid of rural reconstruction schemes, whether as grants from the Central Government or contribution from the Public are credited to this deposit head. The actual expenditure out of the moneys held in the Deposit Account is budgeted and accounted for as ordinary expenditure of the Department concerned the necessary transfer of funds representing actual expenditure being made at the end of the year to the appropriate revenue head of receipts concerned. This procedure is applicable *mutatis mutandis* to transactions of other funds of this kind which are fed by contributions from the Central Government or outside agencies where the authority making the contributions does not retain full control over expenditure therefrom

(333) Grants in aid made by the Indian Central Cotton Committee to the Governments of Bombay, Bengal, Punjab, Central Provinces and United Provinces for expenditure on special schemes of agricultural research and other allied objects in those provinces, are credited to this fund. The Committee retains full control over the expenditure out of this fund although the Director of Agriculture of the Province or any officer authorised by him actually operates the fund. Where however, e.g. in Madras, the grants made by the Committee are merged in the Provincial revenues, the accounting procedure follows *mutatis mutandis* the procedure laid down in footnote (301 A)

PAYMENTS

- (9) Cost of note forms
- (10) Security Deposit interest payments
- (11) Charges for remittance of treasure—
 - (a) Police escort charges
 - (b) Cost of boxes, cart and cooly hire, etc
 - (c) Pay and allowances of potdars, accompanying remittances
 - (d) Railway and Steamer freights
- (12) Dividend on Reserve Bank Shares
- (13) Miscellaneous
- (14) Balance due to the Reserve Bank

Transactions on account of the Reserve Bank occurring at treasuries or sub-treasuries should be carried by the Government, Central or Provincial, in whose jurisdiction the treasury or sub treasury is situated, until they are cleared by the Accountant General with the Bank. Transactions brought to account under the head "Accounts with the Reserve Bank" by adjustment in accounts offices should be classified as Central or Provincial according as the office of origin is Central or Provincial.

The Civil Accountants General should send a statement each month to the Central Accounts Office of the Reserve Bank at Calcutta showing the credits and debits recorded under the above heads in their respective books during the previous month, the debits and credits being supported by such vouchers and documents as may be desired by the Bank. If the net total of the statement be a credit, arrangement should be made for the disbursement of the amount to the Bank and if the net total in the monthly statement be a debit, the amount should be recovered from the Bank for credit to this head.

The Major head "Accounts with the Reserve Bank" with the Minor head should also be opened in the books of Railway Accounts Officers for adjustment of the cost of Railway freights in connection with the remittances of treasure. Each Railway Accounts Officer will prepare monthly bills for the amounts of credit notes and Railway Warrants issued by the Reserve Bank, or on its behalf, by Treasury Officers, etc, and submit them to the Central Accounts Office of the Reserve Bank at Calcutta which will make payment by cheques, drafts or remittance transfer receipts. The bills for the amount of commission due on these credit notes and Railway Warrants will be similarly dealt with.

(*Explanation*—Under the head "Pay and allowances of potdars accompanying remittances" should be charged the allowances of a potdar accompanying a remittance whether he is permanent or temporary, and the pay of a temporary potdar engaged in connection with the remittance, whether he accompanies it or remains at the treasury to carry on the work of the potdar deputed with the remittance)

Bronze (and Copper) Coinage Account (344)

(343) These accounts receive the balances of bullion and of small coin (which have to be excluded from the general available cash balance) by credit for the opening and debit for the closing balance of each account "Bullion Advances for Coinage" receives the balance of the bullion account, and "small Coin Depot Balances", which should be divided by inner columns into "Small Silver Coin Balance", "Nickel coin balance", and "Bronze and Copper coin balance", those of the Small Coin Depot accounts. The bronze and nickel coin balance in the Mint is provided for in the second part of the Bronze and Nickel Coinage Account, *vide* following notes

(344) The Bronze (and Copper) Coinage Account is in four parts. The first two parts are on the books of the Accountants General, Bombay and Bengal. The last two parts are in the books of the Accountant General, Central Revenues, who makes the necessary adjustments relating to those accounts by journal entries as soon as the March final figures are completed, thus —

Nickel Coinage Account (345)

The other heads, except the balances, come in by transfer in making up the account at the end of the year —

- (a) Cost of copper, tin, zinc, etc, purchased for Bronze coinage is charged to this head
- (b) Credit receipts to this head
- (c) When copper, etc, is thus transferred, the Mint Master should debit "Loss on Coinage" by credit to this head
- (d) This transfer should be made monthly by the Mint Master in his monthly account
- (e) The closing balance of copper, etc, in stock being first ascertained, the difference required to produce this as the balance of Account No 1 should be transferred by the Accountants General, Bengal and Bombay, in closing the account at the end of the year to the Accountant General, Central Revenues, for adjustment in Account No 3 on the books of the latter
- (f) The Mint Master should credit this by debit to "Mint Remittances" or to "Foreign Remittances"
- (g) The Government is entitled to bring to account each year, as profit realised only that portion which belongs to the amount of coin issued for circulation that is passed out of Mint and depots combined

The sum of the gross profits brought forward from last year, and the gross mintage profit of the year must therefore be distributed as follows —

Let A be the amount of coin in the Mint and depots on April 1st,

B be the new coin added to the joint stock during the year,

C be the net issues to the treasuries,

$D = A + B - C$ is the balance in Mint and depots on March 31st

Then, out of the whole sum of the gross profit, $\frac{C}{A+B}$ is the portion to be taken as realised and transferred to Account No 4

$\frac{D}{A+B}$ is the portion to be carried forward as balance to next year

- (h) This represents the difference between the nominal value and metal value of uncurrent coins destroyed at the Mints
- (i) This, the final result, is carried to the revenue or service head, according as it is on the whole a gain or a loss. This is subject to adjustment with the Government of Burma under the provisions of Para 4 of Part IV of the Government of India (Burma Monetary Arrangements) Order, 1937

(345) The remarks in footnote (344) apply *mutatis mutandis* to Nickel Coinage Account

(347) When outstandings due to Government are capitalized so as to bear interest the amount is debited as a loan to the party concerned. The credit is taken to the head "Capitalized Outstandings," under "Suspense" so as to avoid bringing it under the service head of 'Receipts' until it is actually realized.

(348) This head receives the debits on account of purchases of Promissory Notes for Savings Bank depositors, pending adjustment by debit to the Local Account. The sale proceeds of these securities and the interest realised thereon are credited to the same head.

(349) To receive the debits and credits on account of English stores, which appear in the remittance account, and which are required to be entirely and exactly adjusted in the remittance account, though they cannot always be finally disposed of in the Indian accounts at once.

Miscellaneous

(350) This head is intended for the record of transactions connected with temporary investments of cash balances, *e g*, in short term loans or other securities of the Government of India. In the Central Accounts the head is debited with the amounts expended on the purchase of the Securities and on the cancellation of the loans, the nominal value of the cancelled Securities is debited to "Permanent Debt" by *pro contra* credit to this head to the extent of the purchase price originally debited to it, the difference being adjusted by addition to or deduction from the amount of interest derived from such investments, which itself is adjusted by reduction of expenditure under "22—Interest on Debt and Other Obligations". Similarly, any profit or loss arising out of the sale or transfer of Securities held in the investment account is adjusted by addition to or deduction from the amount of the said interest, the sale proceeds or transfer value being credited to this head to the extent of the purchase price.

The procedure set forth above applies *mutatis mutandis* to transactions connected with the investment of cash balances of any Provincial Government in treasury bills or other securities of the Government of India but any interest derived from such investments is credited as receipts under "XX—Interest—Interest realised on investments of Provincial Balances."

(351) When a Sinking Fund is established for the discount on a rupee loan, in order to spread the charge to revenue over the period of the currency of the loan, the full nominal value of the loan is credited to the head "Permanent Debt", and the discount is charged to the head "Discount Sinking Fund". The debit against the latter head is cleared by annual payments out of revenue on a Sinking Fund basis, such payments being charged in the Revenue Account under head "22—Interest on Debt and Other Obligations Discount on Loans". A separate sub head may be opened under this Minor Head for each rupee loan for which a Discount Sinking Fund is established.

(352) Recoveries made in course of audit are taken in the first instance to this head and thereafter finally brought to account.

(353) This head is intended for the provisional adjustment of departmental receipts and payments which are entered by the treasury in separate schedules. The amounts so adjusted are cleared by *minus* credits and debits afforded through the Departmental Classified Abstracts in which the transactions are finally brought to account. The head is also used for the provisional adjustment of inter departmental transfers.
